

Personalised Marking in SLS

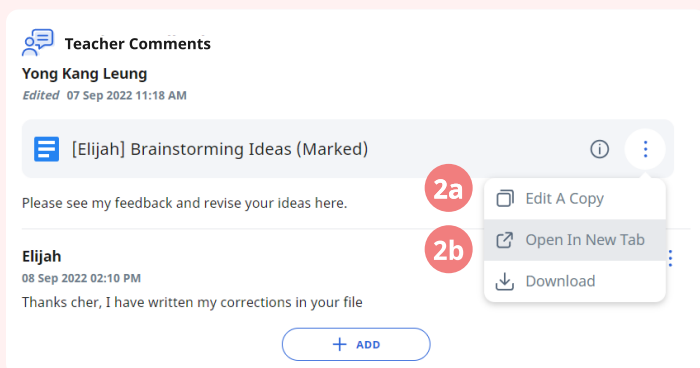

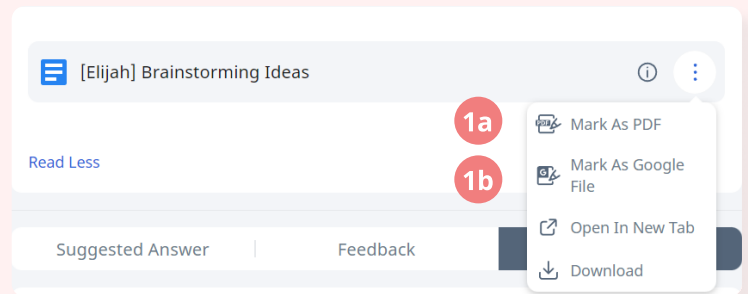

COMING TO YOU ON 1 DECEMBER

Providing Feedback on SLS is Now Easier!

1 New Marking Options

Mark your students' work with touch sensitive devices using Google Extensions such as Kami or Lumin on a PDF file (1a) or as a Google File (1b).

2 Two-way Feedback

Students can also reply to your feedback (e.g. with their corrections) by editing a copy of the file (2a) or editing your file directly (2b).
