

What are Courses?

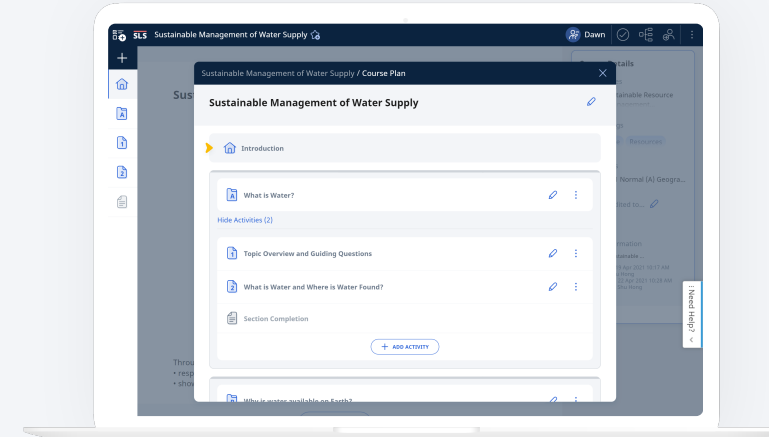

The “Courses” feature now allows you to teach a topic by connecting different sections. Each section can consist of up to 20 activities. You can design a course for students to go through independently or as part of blended learning.

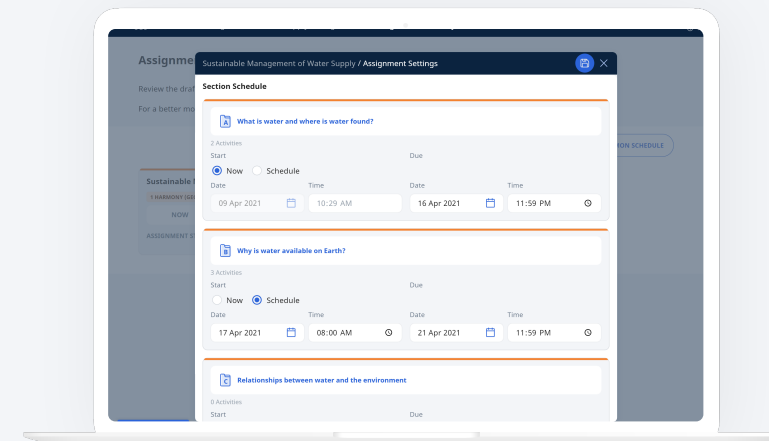

Introduction to Courses

RELEASE 15: POSTER 2 OF 7

- **Create Learning Packages**
Design an inquiry learning package for students to explore and learn specific concepts.

- **Schedule Student Access to Sections**
Create a learning schedule for students by setting different start and end dates for each section.
